

# FREDERICK M. HUESTON

---

*Certified Master Stone Craftsman and Architectural Conservator specializing in the biology, chemistry, structural integrity, and appearance of interior and exterior surfaces.*

## STONE FORENSICS, INC

Offices in Florida and Bellingham, WA

232 So. Huntington Ave

Melbourne, FL 32901

321-514-6845

[www.stoneforensics.com](http://www.stoneforensics.com)

[fhueston@stoneforensics.com](mailto:fhueston@stoneforensics.com)

## DESCRIPTION OF SERVICES

Surface restoration can be accomplished at a fraction of the cost of replacement. Some of the problems associated with natural stone, tile, masonry, and other surfaces that we have resolved for various clients over the years include inappropriate selection, improper installation specifications, yellowing marble floors, loose tiles, cladding falling from a building, historical building restoration, monument stain removal, flooding restoration, slip and fall hazards, stone fabrication issues, as well as environmental health and safety concerns.

Our clients include U.S. government, local and state governments, casinos and hotels, general contractors, insurance companies, tile contractors, attorneys, and architectural and engineering firms.

## ABOUT

***Fred Hueston is founder of Stone Forensics, a stone, tile, and masonry consulting company. Over the past few decades, he has gained national renown as a knowledgeable consultant. His primary business activity is inspection and failure analysis, historical preservation, and consultation services for marble and other natural stone, tile, terrazzo, facades, and other surfaces. He specializes in non-destructive testing, expert witness, specifications, restoration and maintenance, safety (HAZCOM), insurance claims, and infrared photography. His extensive experience in biology, chemistry and physics includes serving as a research assistant for the University of Florida and leading several large environmental research projects for Walt Disney World. He understands how mold, bacteria, viruses, and other pathogens are spread and controlled.***

## CONSULTATION PROGRAMS

*Fred Hueston has consulted on a wide variety of projects worldwide. Consultation services include examination, evaluation, and advice on any problem dealing with surfaces, including:*

- Specification writing
- Failure analysis
- Project review and analysis
- Surveys
- Job problem analysis
- Installation inspections
- On-site testing
- ASTM testing
- Petrographic and other laboratory testing
- Non-destructive testing
- Borescope examinations
- Infrared thermography
- Repair feasibility studies
- Sample collection
- Owner representation/supervision of installations
- Restoration procedures and recommendations
- Insurance claims
- Stain removal testing
- Facade inspections
- Training
- Historic preservation and conservation
- Expert witness
- Slip/fall testing and prevention programs
- Forensic consultations due to stone accidents/wrongful death
- HAZCOM and safety programs and manuals

## ACCOMPLISHMENTS

- Bachelor of Science degree in Chemical & Physical Science (Limnology) (University of Central Florida 1981)
- A Certified Master Stone Craftsman & Architectural Conservator
- Former Director for the National Training Center for Stone & Masonry Trades and instructor for master and senior level craftsman certification
- Former member of the Marble Institute of America and past Technical Director
- Chief Technical Director for SurpHaces
- Certified Instructor of the International Surface Fabricators Association
- Committee member of ASTM C18 on Dimension Stone
- Founding member of the International Association of Stone Restoration and Conservation (IASRC)
- Hosts a weekly radio show, "The Stone & Tile Show"
- Former Technical Editor for Stone World Magazine
- Member of The International Association of Certified Home Inspectors
- IICRC Instructor for Certified Marble and Stone Inspectors
- Has appeared on several television shows including The Discovery Channel, HGTV, and several local talk shows
- Frequently presents seminars and presentations for stone, tile, and historical associations
- Has published well over 100 articles on stone, tile, and surface installation, care, and restoration in both the United States and foreign publications and journals
- Has authored over 30 books and ten instructional videos
- Writes a syndicated newspaper column, "Around the House"
- Has served as technical advisor, consultant, and expert witness for numerous projects across the US, Canada, Asia, and Europe
- Teaches many courses including Stone Inspection as well as many introductory to advanced level training at the SurpHaces Learning Institute
- Technical Director for SAFEandCompliant.net
- 30 Hour OSHA Certified
- Past Instructor at AB Technical College, Asheville NC

## TECHNICAL ADVISOR, SPECIFICATION WRITER, PROBLEM SOLVER

*Clients include dozens of architectural, engineering, law, government, and private industry firms including:*

- US Government-Office of the Architect of the Capitol, Washington, D.C.
- Federal Court of Appeals, San Francisco, CA
- Ohio State Capitol and Senate Buildings
- Laticrete International
- Walt Disney World Company, Orlando, FL
- Los Angeles County Library
- Kennedy Space Center, "Space Mirror"

## PUBLICATIONS AND APPEARANCES

*Fred Hueston is a freelance writer and has written brochures, ad copy, manuals, etc. for numerous stone and tile businesses. He is published in numerous trade and scientific journals. He has appeared on well-known television shows, as well as local talk shows.*
